

# Pipe Embossing Machine

## Application

The pipe embossing machine is a cold rolling forming machine and a typical molding forming machine. The embossing machine processes metal, stainless steel, iron, aluminum and other material pipes by means of mold pressing(cold forging forming). It can make all kinds of patterns such as round flowers, craft flowers, big head flowers, egg flowers, etc. Decorative tubes processed by embossing machines are widely used in furniture, lighting, home and other fields.

Model	25	32	50	76	114
Mold Size(mm)	30x300x55	36x300x55	50x300x75	60x400x60	85x300x70
Tube Diameter(mm)	12-25	12-25	25-51	51-76	38-114
Thickness(mm)	0.2-0.5	0.2-0.5	0.2-1.2	0.4-1.5	0.7-1.5
Forming Length(mm)	290	290	290	290	290
Speed(m/min)	18-72	18-72	18-72	48-180	60-240
Motor Power(KW)	3	3	4	7.5	11
Weight(T)	1	1	2	3	5

# Pipe Twisting Machine

## Application

Model	Automatic Pipe Twisting Machine	Semi-automatic Pipe Twisting Machine
Pipe Diameter(mm)	10-20	10-70
Thickness(mm)	0.2-0.8	0.2-1.5
Forming Length(mm)	600	600
Speed(m/min)	45	12
Motor Power(KW)	1.5	1.5
Weight(T)	0.8	1.5
