

Panel Processing Machines

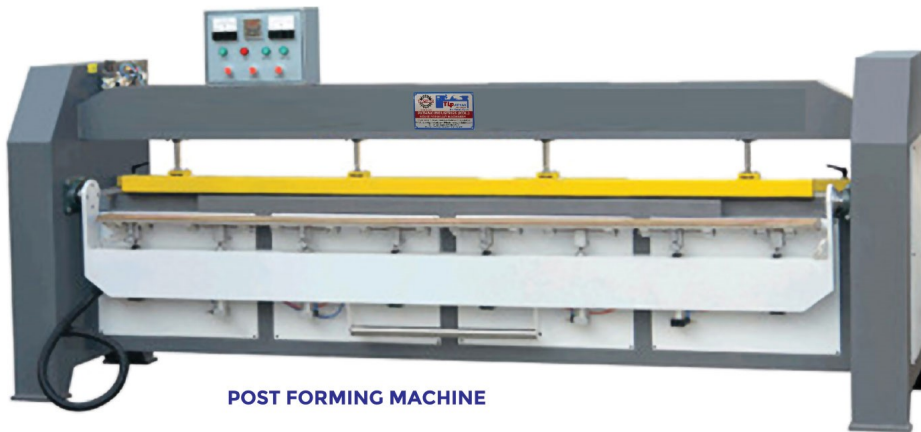

VACCUM MEMBRANE PRESS

Workable Table Size	2500 x 1250mm
Start up power	15kw
Max. Working height	60mm
Working power	6kw
Vacuum	0.1mpa
Weight (Approx)	1400kgs

It can be used to laminate PVC, Veneer, thermal transfer paper on the surface of kitchen doors and door panels

POST FORMING MACHINE

Panel length (Min. -Max.)	600-2600mm
Panel Thickness	10-100mm
Min. working Width	200mm
Installed Power	6 kw
Pneumatic Power	6-8 KG/cm ²
Max. Temperature	200°C
Weight (Approx)	1200kgs

Application
