

CNC CLAMP MAKING MACHINE

Specification :

Applicable materials - Mild Steel

Main Functions - Straightening, punching,
bending, cutting, forming
stamping.

Control Type - Hydraulic type CNC control
Full auto PLC programme

No of cylinder 2PCS

Iron Size Range - W:30-80MMT :3-8MM

Feeding servo motor - 7.5KW (1)

Bending servo motor - 5.5KW (2) Max .

Bending Speed - 800 degree/ SEC

Feeding wheels materials - CR12MOV

Electric control system - KUNLUN

Hydraulic motor Power - 11KW

Bending Range (DIA) - 60-700mm

Mold Materials - CR12MOV

Feeding Rack or Decoiler - With

Outer Dimension (mm) - 2700*1250*1900

Net/Gross Weight - 2600/2700KGS

APPLICATIONS -

HEAD OFFICE

PATHAK INDUSTRIES KOL

a unit of T.L. PATHAK GROUP

116,117,G.T. ROAD,SALKIA,HOWRAH-711106
