

Advance Line Boring Kit

Advance Line Boring Kit

PORTABLE LINE WELDING KIT AND SURFACING KIT (Optional)

| MODEL | ALB1 |
|------------------------------------|-----------------------|
| Diameter of boring | 36-200 mm |
| The diameter of the boring bar | 30 mm* |
| The length of the boring bar | 1200 mm* |
| Working stroke of the boring bar | 400 mm |
| Adjustment of feed speed depends | on the electric drill |
| Adjustment of rotary speed depends | on the electric drill |
| Reverse of spindell depends | on the electric drill |
| Accuracy of treatment | H7 |
| Power supply of the drive unit | 220 V,50 Hz |
| Roughness | 1,6 Ra |

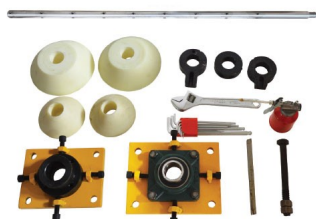

- ▶ Carbide Pad : 10 pcs
- ▶ Mobile Carriage : 1 pcs
- ▶ Boring Bar : 1 pcs
- ▶ Boring Cutter : 1 pcs
- ▶ Main supports : 2 pcs
- ▶ Centering cones : 2 pcs
- ▶ Fastening Set : 1 set
- ▶ Adapter to a boring bar : 1 set

Portable Line Boring Machine

| MODEL | KCP-40 |
|------------------------------------|-------------------------|
| Boring bar dia. & length | Ø50x1500mm (Standard) |
| Boring dia. | Ø45-200mm |
| Facing dia | Ø50-260mm |
| Power unit | DC motor 1.5KW |
| Rotating Speed | 0-100rpm variable speed |
| Boring Speed | 450mm |
| Axial feed speed | 0-100 mm/min |
| Machining hole face roughness | RA3.2 |
| Machining hole roundness tolerance | ≤ 0.04mm |
