

# PORTABLE MOTORCYCLE CYLINDER BORING HONING MACHINE

## ► FEATURES :

1. The Cylinders of the motorcycles with diameter 39-72mm and depth within 160mm can all be bored and honed.
2. If the suitable fixture are fitted, other cylinder bodies with corresponding requirements can also be bored and honed.

## SPECIFICATION

MODEL	PMCBH
Diameter of Boring & Honing hole	39-72 mm
Max. Boring & Honing Depth	160 mm
Rotational speed of boring & spindle	480 r/min
Steps of Variable Speed of Boring Honing Spindle	1 step
Feed of Boring Spindle	0.09 mm/r
Return and Rise Mode of Boring Spindle	Hand operated
Rotational Speed of Honing Spindle	300 r/min
Honing Spindle Feeding Speed	6.5 m/min
Electric Motor Power	0.75 kw
Rotational	1400 r/min
Voltage	220v or 380v
Frequency	50HZ
Overall Dimension (L*W*H)	680mm*480mm*1160mm
Packing (L*W*H)	820mm*600mm*1275mm
Weight of Main Machine(approx)	N.W 230 kg, G.W 280 kg
