

Single Spindle Automatic Lathe

Manual Production Lathe / ADDA Lathe

THE TL PATHAK make Automats, tube parting automats are extremely versatile machines that gives big returns on small investment. Jobs can be profitable handled on these automats with accuracy and precision. These automats have proved economical for mass production of ball bearings and other components. The simple design of these automats, greatly reduces the time of change over of tooling setup from one components to another.

Our automats are highly precision, robust and cost effective machines. They are most suitable for mass production of precision parts. These machines find application in Automobile, Electronic, Electrical, Textile and General Engineering Industries. This machine is available in various models.

Standard Accessories

Front & Rear Main Slides, Bar stopper, One Set of Cam, One Silent Gravity Bar Feed Chest.

Optional Accessories

Single Vertical Slide, Front Slide Two Piece Parting Attachment, Four Piece Parting Attachment, AC Drive, Additional Tool Holder and Chamfering Attachment.
