

PIPE END CLOSING MACHINE

▶ FEATURES :

1. It can seal pipe end with round head or flat head.
2. Suitable for different material pipe sealing, such as stainless steel tube, iron pipe, aluminum, copper tube.
3. Pressed to the processing dimension by mold, the processing range is wide, and the mold replacement is simple and convenient
4. Single-chip computer control, and it is easy to operate.
5. water cooling.

▶ SPECIFICATION :

Model	TLPPEC-40
Pipe OD	6-40 mm
Pipe thickness	0.7-2 mm
Voltage	380 V 50 Hz can be customized
Motor power	4.0 KW
High frequency heater	20 KW
Control	micro computer
Cooling system	water cooling
Machine weight	900 kg
Machine size	1.9x1.0x1.35 m
Parameter of high frequency heater	
Model	TLPPEC-20
Input power	2-220 KVA
Frequency	30-110 KHz
Water Cooling pressure	0.05-0.15 Mpa
flow rate	5-10 L/Min
